**FIG. NOTES**

4, 10 Care must be used when securing fasteners in tool. To prevent stripping do not over tighten. It is not recommended to use power tools, hand tighten only. Torque screws #4 to 5-7 in/lbs (6-8 kg/cm). Torque screws #10 to 3-4 in/lbs (3.5-4.5 kg/cm).

22 A clean, dry surface is essential for proper performance for any adhesive system. The area intended for application of any adhesive label or nameplate must be prepared by cleaning with isopropyl alcohol. The solvent is to be applied with a clean, lint free applicator and the surface allowed to dry before applying the label or nameplate.
